CHANDRAKANTH H V

| | | | | Banglore

Objective

MERN Full Stack Developer with expertise in **MongoDB, Express.js, React, and Node.js**. Completed 5+ projects, including Issue Tracking System, To-Do List, and File Upload System. Skilled in REST APIs, authentication, and scalable app design. Strong communicator with teamwork, adaptability, and problem-solving ability.

Education

BE in Electronics and Communication Engineering, **SJC Institute of Technology** 2021–2025 CGPA: 8.3

PUC (PCMB), **BEST PU College, Karnataka** 2019–2021 83%

SSLC, **Prakruthi Vidhyanikethan School** 2009–2019 88%

Skills

Technical Skills

- Frontend: React.js, JSX, Hooks, Context API, HTML5, CSS3, JavaScript (ES6+), Responsive Design
- Backend: Node.js, Express.js, REST APIs, Middleware, JWT/OAuth, Security
- Database: MongoDB, CRUD, Schema Design, Aggregation, Mongoose
- Tools: Git, GitHub/GitLab, Vercel, Netlify

Soft Skills

- Leadership, Adaptability
- Communication, Teamwork
- Time Management
- Problem-Solving, Critical Thinking
- Creativity & Innovation
- Continuous Learning

Projects

Issue Tracking System

- Developed a bug tracking platform with role-based authentication and notification system.
- Integrated MongoDB Atlas for issue storage and JWT for secure user sessions.
- Enabled real-time updates when code was pushed to Git repository.

File Upload System (Multer + MERN)

- Built file upload and management system using React, Node.js, Express, and MongoDB Atlas.
- Added authentication, secure user DB, and Multer-based file handling.
- Integrated Fetch API for real-time data flow.

MERN To-Do List Application

- Created task management app with CRUD operations and JWT authentication.
- Designed a responsive React frontend integrated with REST APIs.
- Focused on scalability and modern UI best practices.

Internship

Contriver – Smart Helmet using IoT *2024*

Developed an IoT-based Smart Helmet that detects accidents and ensures helmet usage. Enabled real-time alerts and data transmission for rider safety.

Fyllo – Automated Weather Unit *2024*

Worked on real-time monitoring of farm-specific climate conditions. Enabled precision agriculture with data-driven recommendations for irrigation and crop management.

Certifications

- **MERN Full Stack Development – StemUp (Bangalore, Jayanagar)**: Upskilling program covering MongoDB, Express.js, React, Node.js, REST APIs, authentication, UI design, and deployment. Completed multiple projects to gain real-world development skills.
- Programming with Python – Simplilearn
- Introduction to IoT – Simplilearn
- Basics of Computer Networking – Great Learning
